進行進階設定

進行進階設定

9. 點選回應設定，並設定以下設定

The screenshot shows the 'Response Settings' (回應設定) page in the LINE settings menu. The 'Response Settings' (回應設定) option is highlighted in the left sidebar. The main content area is divided into 'Basic Settings' (基本設定) and 'Advanced Settings' (進階設定). In the 'Basic Settings' section, 'Response Mode' (回應模式) is set to 'Chatbot' (聊天機器人), 'Add Welcome Message for Friends' (加入好友的歡迎訊息) is set to 'Off' (停用), and 'Add Welcome Message Settings' (加入好友的歡迎訊息設定) is highlighted. In the 'Advanced Settings' section, 'Automatic Response Message' (自動回應訊息) is set to 'Off' (停用), 'Webhook' is set to 'On' (啟用), and 'Webhook Settings' (Webhook 設定) is highlighted. Three callout boxes with red borders and arrows point to these settings: '設定為機器人' (Set to robot) points to 'Chatbot', '停用回應訊息' (Disable response message) points to 'Off' for 'Add Welcome Message for Friends', and '啟用 WEBHOOKK' (Enable WEBHOOKK) points to 'On' for 'Webhook'.

10. 點選 Meaages API 頁籤，設定 GEMINI 提供的 WebHook URL，LINE 會檢查主機資安條件，設定完成，須點選 Verify 進行確認無誤

The screenshot shows the 'Meaages API' settings page. At the top, there is a QR code and a message: 'Scan this QR code with LINE to add your LINE Official Account as a friend. You can share the code with others.' Below this, under 'Available APIs', there are two options: 'REPLY_MESSAGE' and 'PUSH_MESSAGE'. The 'Webhook Settings' section is highlighted with a red box. It contains a 'Webhook URL' field with the value 'https://linebot.slink.com.tw/line/api/linebot.php?site_id=1&site_name=default', a 'Verify' button, and an 'Edit' button. Below the URL field, there is a 'Use webhook' toggle switch which is turned on, and a 'Webhook redelivery' toggle switch which is turned off.
